PROFILE

Experienced and adaptable full-stack software engineer with two years of proficiency in C# and various technologies. Dedicated to providing top-notch solutions and utilizing cutting-edge tools to enhance business outcomes. Looking for an engaging role as a full-stack software developer to offer technical proficiency, teamwork abilities, and a commitment to ongoing learning.

WORK EXPERIENCE

Software Developer

DevProject(Pty), South Africa *September 2022- Present*

ABCD Electricity (ASP.NET Core, Entity Framework Core, SQL Database, Chart.js, Azure):

- Spearheaded the development of ABCD Electricity, utilizing ASP.NET Core, Entity Framework Core, and SQL Database to deliver a robust web application for managing electricity services.
- Implemented dynamic data visualization using Chart.js to provide insights into energy consumption trends.
- Leveraged Azure services for deployment and hosting, ensuring scalability and reliability.

Talk To Tobo (Umbraco CMS, C#, AWS Lambda, AWS S3, HTML/CSS):

- Led the implementation of Talk To Tobo, a life coach platform, utilizing Umbraco CMS for content management and C# for backend development.
- Utilized AWS Lambda and AWS S3 for serverless architecture, optimizing performance and cost-efficiency.
- Collaborated closely with the client to ensure seamless integration of features and timely project delivery.

Bloomwave (Blazor, Azure ADB2C, Azure Storage, SQL Database, Bootstrap):

- Currently driving the development of Bloomwave, a platform connecting artists and event managers, using Blazor for frontend development and Azure ADB2C for authentication.
- Leveraged Azure Storage for file management and SQL Database for data storage, ensuring scalability and performance.
- Employed Bootstrap for responsive and visually appealing UI design, enhancing user experience.

Mobile Platform (Flutter, Firebase, Firebase Cloud Functions, Firestore, Huawei Push Kit):

- Led the development of a mobile platform connecting teachers and parents, utilizing Flutter for cross-platform app development.
- Integrated Firebase services such as Firestore and Firebase Cloud Functions for backend functionalities, enabling real-time data synchronization and notifications
- Adapted the app for deployment on Huawei devices by replacing FCM with Huawei Push Kit, ensuring compatibility across different platforms.

OTHER SKILLS

- Javascript
- Umbraco
- React
- Blazor
- Flutter.
- Firebase
- SQL Server
- Entity Framework Core
- AWS
- Selenium
- CI/CD
- Git
- Github
- Azure DevOps
- Tailwind
- Bootstrap
- Wordpress
- Firebase Cloud Functions
- Figma

GAINED SOFT SKILLS

- Teamwork
- Cooperation
- Communication

CERTIFICATES

Udemy

- The Complete 2022 Web Development Bootcamp

INTERESTS

- Philosophy
- Feminism
- Mindfulness
- Gaming
- Robotics

SAYES (HTML, Tailwind CSS):

- Designed and implemented SAYES, an HTML template using Tailwind CSS for enhanced styling and responsiveness.
- Demonstrated proficiency in frontend development and UI/UX design principles, delivering a sleek and modern user interface.

Surgery (*Assistant*), *part time*

Musavengana, Zimbabwe

- Assisted in administrative tasks and provided support to medical staff.
- Engaged in various tasks to ensure smooth operations within the surgery.

LEADERSHIP & EXTRACURRICULAR

Chess Club, Mt Selinda

Chairperson

- Organized and led various events , workshops, and stargazing sessions for members
- Fostered a sense of community among chess enthusiasts and promoted chess education.
